

# Construct Unpaved Assault Runway AFRC / Youngstown ARS, Ohio

**Project Description (U):** Construct an unpaved assault runway and a minimum apron with proper drainage and a non-frost susceptible subgrade.

**Risk/Impact to Mission (U):** The 910<sup>th</sup> will not be able to provide The mission requirements with the current aircraft assigned in Support of our national defense objectives. Without a required Unpaved assault runway, the aircraft within the region will not be Able to train on an unpaved tactical landing zone and will cause Pilots and crews to be deficient by 40% for unpaved assault zone Certification. This will result in aircraft commanders failing to be combat ready.

**Supporting Statements (U):** A requirement exists for an unpaved assault runway to support mission parameters at the Ravenna Army Arsenal (30km NW of YARS). The assault landing zone for training in the region. The requirement exists in AFI 11-2C-130 and 11-2C-17 to comply with training requirements for air crews to be proficient at tactical landings on unpaved runways. AFR 51-130 requires unpaved assault zone certification before an aircraft commander is considered combat ready.

**Workaround (U):** Aircraft and crews need to travel to Pope AFB, NC. Availability of these training zones are severely limited by the users of the base. Extensive delays are encountered when scheduling These zones.
